CONNECTED KITCHENS

CONNECTED COMMUNITIES

MAPPING EDMONTON'S CIRCULAR FOOD ECONOMY
KITCHEN BY KITCHEN, NEIGHBOUR BY NEIGHBOUR.

TCKP | THE CONNECTED KITCHEN PROJECT

Strengthening community by supporting circular food economy.

TCKP transforms underutilized food infrastructure into coordinated community assets that support food entrepreneurs, food security programs, food rescue initiatives, and local economic development.

EXISTING COMMUNITY ASSETS

- Commercial Kitchens
- Community Organizations
- Schools & Institutions
- Food Infrastructure

TCKP COORDINATION LAYER

- **Governance & Stewardship**
  Transparent, accountable, community-led
- **Scheduling & Access**
  Streamlined, equitable, user-friendly
- **Compliance & Training**
  Food safety, licensing, and standards
- **Shared Operations**
  Maintenance, resources, and support

COMMUNITY OUTCOMES

- **Food Entrepreneurship**
  Support for local food businesses
- **Food Security**
  Stronger programs, more impact
- **Food Rescue**
  Reduce waste, feed more people
- **Local Economic Development**
  Jobs, revenue, and community growth

THE CHALLENGE

The challenge is not kitchen scarcity.

The challenge is coordination capacity.

TCKP PROVIDES

- Shared-use kitchen governance
- Operational coordination
- Food entrepreneur support
- Circular food economy infrastructure
- Community stewardship models

IMPACT

By connecting people, kitchens, resources, and opportunities, TCKP helps communities generate more value from infrastructure that already exists.

CONNECTED KITCHEN MANAGEMENT

CKMS: Governance Infrastructure for Shared-Use Food Systems

CKMS provides the governance and operational coordination systems that safely activate underutilized licensed food infrastructure—turning existing community assets into coordinated, productive capacity.

The challenge is not infrastructure scarcity.
The challenge is coordination capacity.
CKMS provides the governance layer that enables safe, transparent, and sustainable shared use of Alberta's existing licensed food infrastructure.

SIIH
Social Impact Innovation Hub

SOCIAL IMPACT INNOVATION HUB

SHARED INFRASTRUCTURE. STRONGER TOGETHER. GREATER IMPACT.

A shared layer of ecosystem infrastructure designed to enable consistent, collaboration at scale across Edmonton's social impact community.

EXISTING ECOSYSTEM

- Nonprofits & Charities
- Social Enterprises & Mission-Driven Orgs
- Researchers & Post-Secondary
- Government Programs & Agencies
- Community Groups & Civic Partners

SIIH: SHARED INFRASTRUCTURE LAYER

STRONGER IMPACT, TOGETHER

- **SCALABLE IMPACT** — Greater outcomes through collaboration
- **CIRCULAR ECONOMY** — More value from shared resources and spaces
- **UNDERUTILIZED SPACE ACTIVATION** — Putting existing assets to work
- **COORDINATED ACTION** — Aligned efforts, less duplication, more results
- **SYSTEMIC RESILIENCE** — Stronger, more adaptive communities

THE CHALLENGE IS NOT A LACK OF ORGANIZATIONS, IDEAS, OR EFFORT.

THE CHALLENGE IS COORDINATION CAPACITY.
